

REMARKS

Claims 1, 2 and 4-12 are in this application and are presented for consideration. By this amendment, Applicant has amended claims 1, 2 and 4-10. Claim 3 has been canceled. New independent claims 11 and 12 have been added according to the allowable subject matter noted in the Office Action. The specification has been amended as shown above to correct minor grammatical errors.

Claims 2, 8 and 9 have been objected to because of minor informalities.

Applicant has amended the claims to address this issue.

Claims 1-10 have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite. Claims 1, 3 and 5 have been rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. Claims 3-5, 7 and 8 have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite.

Applicant has amended the claims paying close attention to the Examiner's remarks. It is Applicant's position that the claims as now presented are clear and fully comply with the requirements of the statute. Accordingly, Applicant respectfully requests that the Examiner remove the rejections in light of the changes made to the claims.

Claim 1 has been amended to include the allowable features found in claim 3. Accordingly, claim 3 has been canceled. New independent claims 11 and 12 have been added. Specifically new independent claim 11 provides for the allowable features found in claims 1 and 4. New independent claim 12 is a combination of the allowable features found in claims

1 and 5. It is believed that the application is now in condition for allowance, however the Examiner is invited to contact one of Applicant's representatives should there be any outstanding issues remaining.

Favorable consideration on the merits is requested.

Respectfully submitted
for Applicant,
